

Diamond DA40: Garmin – iPad connection

- Connecting your iPad to the Garmin GTX345 is done via BlueTooth (not WiFi like Stratus)

- There are (3) Steps:
 - 1) iPad
 - Settings
 - BlueTooth
 - Select GTX345

 - 2) Garmin GTX345 Panel
 - Select “Accept”

 - 3) iPad - BlueTooth
 - Select Pairing

- Then open ForeFlight and continue as normal

- Note that once this is done for your iPad or Phone, it will automatically reconnect the next time you enter the plane with Bluetooth on.
